Professional Experience

Mern Stack Developer, *Bridgeon Solutions*   October 2023 – present | Calicut, India
- Spearheaded the development of cutting-edge web applications using the **MERN** (MongoDB, Express.js, React.js, Node.js) stack, contributing to advanced functionalities and user-centric designs.
- Engineered high-performance **RESTful API**s, optimizing data flow and enhancing user experience to achieve a notable increase in functionality by 50%.
- Proficiently managed codebase using **Git**, ensuring version control and collaborative development among team members.
- Conducted research into emerging technologies, implementing innovative solutions that resulted in a significant 30% improvement in project efficiency and scalability
- Implemented **Scrum Agile Methodology**, leading to a 25% increase in development speed, enhanced teamwork, and boosted customer satisfaction levels.
- Played a key role in code reviews, providing constructive feedback and ensuring adherence to industry standards, resulting in a 20% enhancement in code quality and maintainability.

Projects

Mentor Holidays, *Hotel and Package Booking Website* 🔗   June 2024 – present
- Engineered a comprehensive booking platform with the MERN stack, enhancing booking efficiency by 40%.
- Designed a responsive front-end using React.js and integrated Nodemailer for secure email verification and OTP, boosting user satisfaction by 30%.
- Integrated Razorpay for seamless payment processing and developed booking management features to prevent date overlaps, reducing conflicts by 35%.
- Applied Chart.js for data visualization and created an admin dashboard for managing bookings and reports, improving analysis and management efficiency by 45%.
- Constructed RESTful APIs with Express.js and leveraged MongoDB for effective data management, optimizing response times and increasing efficiency by 35%.
- Deployed the application using Vercel and AWS, ensuring a robust and scalable infrastructure.

E 90 Men's Hub, *E-Commerse Website for a Shoe Shop* 🔗   December 2023 – present
- Launched a full-fledged e-commerce platform using the MERN stack, driving a 40% increase in online sales.
- Crafted a responsive front-end interface with React.js, improving user satisfaction by 25%.
- Implemented JWT authentication and developed RESTful APIs with Express.js, enhancing security and server response times by 35%.
- Optimized MongoDB for efficient data storage, increasing database efficiency by 30%.
- Executed through testing and debugging, decreasing post-launch issues by 15%.
- Collaborated with cross-functional teams, streamlining development processes and reducing project timelines by 10%.

Education

Bsc Physics, *Calicut University*   June 2017 – March 2020
Malappuram, India

Bachelor of Computer Application(Ongoinig), *Bharathi Dasan*   June 2023 – present
Tiruchirappalli, India
